\*Ikei Hospital: Please make an appointment for your HPV vaccinations (second shot).

\*Kuwahara Kinen Hospital: HPV vaccinations (including second shots) are administered with the 9-valent vaccine only.

\* Suki Shinyojo Clinic: Measles/Rubella/MR combination vaccinations are administered to pre-school children within one year before entering elementary school. Japanese encephalitis will be conducted only for children above 6-years-old.

\*Kobayashi Municipal Hospital: Japanese encephalitis vaccinations for students are administered up to middle school. HPV vaccinations (including second shots) are administered with the 4-valent and 9-valent vaccine.

\*Najiri Central Hospital: Quintuple vaccine (DPT-IPV-Hib) vaccinations are administered to children aged 6 and above.

☆Be sure to make an appointment prior to coming in for your vaccination.☆☆
