

Recyclable garbage is scheduled on a specific date and location determined by each area. When you put out the garbage, please respect the determined time and rules. Please contact Social Affairs and Environmental Division (生活環境課) for more information.

At the designated garbage collection site, listen to the recyclable items sorting instructor(s).

Additionally, we ask that you absolutely make sure to refrain from bringing home any storage equipment, such as nets and containers, etc., installed at the collection site, or any recyclable materials that have been put out by others.

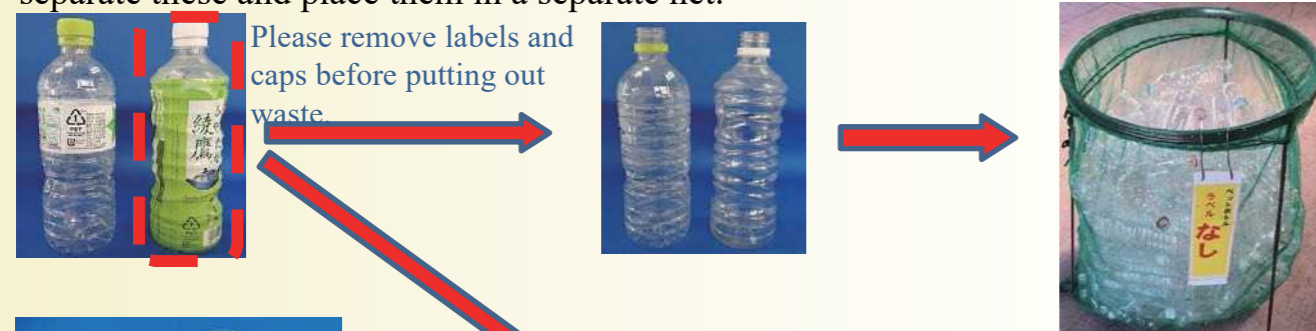

Please put in the net

## PET bottles

- Rinse the bottle off
- Please remove labels and caps before putting out waste.
- For any items for which you are unable to remove their paper labels, etc., please separate these and place them in a separate net.

**Key point**  
Thoroughly check this by examining the plastic bottles and labels.

Small containers used for yogurt and *shochu*, etc., are also considered to be plastic bottles. Please remove any labels on them.

## Caps and removed labels

Please put these out on the day for disposing "plastic containers and packaging."

※ Please dispose of paper labels as burnable waste.

## Styrofoam

- Wash before throwing away
  - It is okay to put them out even if they are cracked or slightly soiled.
- If it's a small styrofoam object, please put it in a designated plastic bag (Even if a styrofoam item has a ♻️ mark, please throw it with the styrofoam garbage)

## Putting out cans

Please put in the net

- Please wash with water before throwing away
- Make a hole in the gas steel cans (make sure to do it outside)
- If you opened your can with a can opener, please fold the lid on the inside
- Other types of cans should be thrown in the appropriate net. If you do not find a mark on the can, please put it with "その他の缶" (others)

## Aluminum Cans

### Precaution

Please remove any metallic lids and put these out as non-burnable waste.

## Steel Cans

Steel Cans

## Key point for searching for logo marks

..... This logo mark is displayed on food product cans, such as beverage cans and fruit cans, etc.

**Steel Cans**.....

This logo mark is displayed on spray cans and cans containing candy, etc. For spray cans, please pay particular attention as there are cases where these logo marks are displayed in the product instruction manual text.

## Other types of Cans

With no particular mark on it
